SEPTEMBER 27<sup>TH</sup> - 29<sup>TH</sup>

The year was 1924 when the first Fairview Colored School building was completed. Please join us this September 27 - 29, as we celebrate its 100<sup>th</sup> year anniversary. The mission of the Fairview - E.S. Brown Heritage Corporation is to further the preservation and documentation of early 20th century values surrounding African American cultural and educational history as related to the period in which Fairview existed for the benefit of the community. By executing its mission, the Corporation enriches the quality of life of new generations, as children and adults alike, learn to appreciate the historic values, traditions and perspectives of everyday life during the period in which the school operated.
